

To Whom It May Concern:

I have met a plethora of real estate agents, but Assaf stands out as one of the most low keyed, caring, high integrity professionals in the field.

Assaf is clearly motivated by a deep desire to bring people to the home that will suit them, in our homeland. When I had limited budget and two days before returning to the States, Assaf worked with me and smoothed the path whenever it got thorny. At 11:00PM the evening before my flight, he contacted a lawyer and arranged power of attorney from his car phone, so I could return with the knowledge I had found the property of my dreams.

Assaf has always made himself available, reachable and he is endlessly patient. I recommend him to anyone I hear who is looking to buy real estate here. He is a treasure of a person.

Sincerely,
