January 26, 2009

Assaf Chollow has provided property management services for my house in the Nachlaot neighborhood of Jerusalem since the Spring of 2006. Assaf's services have included all aspects of maintaining the apartment, including regular inspection and reports, the handling of necessary repairs, payment of utility, tax and other bills, cleaning before, during, and after our use of the house, and responding to emergencies. Assaf also oversaw all aspects of the extensive renovations that have been done to the house subsequent to our purchase, including the hiring and supervision of contractors and tradesmen.

Assaf has been unfailingly reliable, honest, punctual and courteous, and has earned my complete trust. I am happy to recommend Assaf and do so without any hesitation.
